Elk River Watershed Valley Bottom Assessment

Lee-Anne Walker of the Elk River Alliance provided a summary of Phase 1 of the Elk River Watershed Valley Bottom Assessment that will provide data to aid in better land use planning along the Elk River between Elkford and Elko.

Provincial Emergency Notification System

The District of Elkford will send a letter to the Union of British Columbia Municipalities, supporting the City of Parksville as they advocate for the update or replacement of the provincial emergency notification system.

Bylaws

Cross Connection Control Bylaw No. 756, 2014

The Cross Connection Control Program is a requirement of Interior Health for the potable water system. The cross connection devices installed will prevent contamination of the potable water system from residential, commercial or irrigation service connections into the water system. This bylaw received its first three readings and will be submitted for adoption at the February 24, 2014 meeting.
